## **EXAMINER'S COMMENT AND STATEMENT OF REASONS FOR ALLOWANCE**

### **Comment on Submissions**

1. This communication is responsive to submission of 11 October 2005.

### ***Allowable Subject Matter***

2. Claims 1-2, 4-32 and 34-40 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Regarding independent claim 1, the prior art does not disclose or fairly suggest a fluorescent microscope comprising exchangeable filter inserts where in an operating state, no excitation illumination occurs without the filter insert being in a working position and wherein upon insertion of the filter insert, a dimmer for the excitation light source is switchable by insertion or removal of the filter insert by means of the coupling apparatus.

The examiner notes that while it is known in the art for a fluorescent microscope comprising exchangeable filter wherein filter carriers can be removed and mounted by hand, with the result that a set of filter carriers can exhibit a multiplicity of filter combinations which can be exchanged in each case with particular rapidity (see for example *Amann et al. - US 6,563,113 B1*— at Figs. 1 and 6-8, col. 7, lines 21-34), the prior art does not fairly suggest an operating state of a fluorescent microscope not exciting illumination if a filter insert is not in working position.

The remaining claims 1-2, 4-32 and 34-40 are allowable based on their dependency.

Art Unit: 2884

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
